DETAIL AND SUBMITTAL SHEET

5200 Series - Pressure Regulating Valves (Factory Set)

Project/Location: _____

Date: _____

Architect/Engineer: _____

Qty: _____

Contractor: _____

Appropriate Selection

Used to regulate and control high pressures in standpipe and sprinkler systems. Constant pressure regulation under residual (flowing) and static (non-flowing) conditions. Tamper-proof pressure setting (Factory Set). Valve seat acts as checking device and closes when inlet pressures drop below selected static outlet pressures.

Angle type 1 1/2" and 2 1/2", inline (straight) type 2 1/2" size. Female pipe inlet x female pipe or male hose thread outlet. Cast brass body with brass and stainless steel internals. 1 1/2" UL listed 300 PSI, 2 1/2" UL listed 400 PSI pressure. Optional monitor switch adapter bracket permits valve supervision by electrical means.

5240/5245
