

Function

- Used where associated hazards require a greater flow/effective reach of water or foam solution to be delivered from a fixed location

Construction/Features

- Corrosion-resistant cast brass construction, red enamel finish
- Waterways designed to minimize nozzle thrust reaction, permitting one-person operation
- 360° horizontal rotation with twist lock mechanism
- Vertical travel controlled by gear-driven handwheel, providing precise adjustment and position lock
- Ball-mounted swivel with grease fittings for lubrication
- Low friction loss, unobstructed waterways
- Minimum maintenance

Options/Accessories

- Master stream nozzle, foam-educing nozzle or deluge tip (refer to page 77)
- Hydrant base with hose outlets or hydrant mounting assembly (refer to page 78)
